PROFESSIONAL SUMMARY

Aspiring Data Analyst and Full-Stack Developer with hands-on experience through a Deloitte Data Analyst internship. Certified in Data Analytics, Cloud Computing, and AI, with a strong focus on processing large-scale datasets, SQL extraction, and creating dynamic dashboards. Proven ability to architect secure software solutions and translate complex data findings into actionable, data-driven solutions for non-technical stakeholders.

EXPERIENCE & VIRTUAL INTERNSHIPS

Deloitte

May 2026 – Jun 2026

Data Analyst Intern

- Extracted, cleaned, and processed large datasets (500,000+ records) to ensure accuracy, consistency, and reliability, uncovering actionable business insights.
- Monitored and analyzed key performance metrics (KPIs) to support data-driven decision-making processes, identifying areas for a 15% improvement in operational efficiency.
- Developed comprehensive data visualizations and dashboards, reducing stakeholder reporting time by 20% by presenting findings in a clear, concise manner.
- Collaborated with cross-functional teams to understand business challenges, identify structural data trends, and provide targeted data-driven solutions.

Council for Skills and Competencies (CSC India) under APSCHE

May 2026 – Jul 2026

Quantum Computing Intern

- Successfully completed the student internship initiative focused on Quantum Computing, exploring core concepts and computational applications.

ServiceNow & AICTE

Jul 2026

Virtual Internship Program

- Completed hands-on training in ServiceNow Administration Fundamentals, Agentic AI, and Automated Test Framework (ATF) Essentials.

PROJECTS

Supply Chain KPI Monitoring & Analysis

Data Analytics Project

- Analyzed logistics data from a Kaggle dataset containing 10,000+ shipping records to identify structural trends, delivery bottlenecks, and optimization areas.
- Created and maintained complex SQL queries for efficient data extraction, manipulation, and continuous reporting of logistics metrics.
- Designed interactive dashboards utilizing advanced Excel (Pivot Tables, Macros) to track real-time logistics KPIs.

Secure Identity Portal

Full-Stack Project

- Architected a secure full-stack web application leveraging Java and React to manage robust user authentication and access control.
- Implemented advanced security protocols utilizing JWT (JSON Web Tokens) and Bcrypt for highly encrypted credential management and session handling.

Real-Time Earthquake Detector

Embedded Systems Project

- Developed an embedded sensor system utilizing a precision accelerometer to detect seismic activity and broadcast early-warning alerts.
- Integrated hardware and software components to ensure low-latency data processing and reliable real-time monitoring.

EDUCATION

Pragati Engineering College <i>Bachelor of Technology (B.Tech) Surampalem, India</i> CGPA: 8.31	<i>Expected July 2028</i>
Narayana Junior College <i>High School Diploma (Class XII) Kakinada, India</i> CGPA: 9.34	<i>March 2024</i>

CERTIFICATIONS

- **AI in Risk Management and Fraud Detection** – LinkedIn Learning (Jul 2026)
- **Advanced Prompting with GitHub Copilot** – LinkedIn Learning (Jul 2026)
- **Career Essentials in Data Analysis** – Professional Certificate by Microsoft and LinkedIn (Jul 2026)
- **Microsoft Azure AI Essentials** – Professional Certificate by Microsoft and LinkedIn (Jun 2026)
- **AWS Cloud Practitioner Essentials** – AWS Training & Certification (May 2026)

SKILLS & LANGUAGES

- **Data & Analysis Tools:** Data Analytics, Cloud Computing, SQL, Tableau/Power BI, Advanced Excel
- **Programming & Development:** Python, Java, C, React, JWT/Bcrypt, Embedded Systems, GitHub
- **AI & Emerging Tech:** Quantum Computing, Agentic AI, GitHub Copilot, Machine Learning, Generative AI
- **Core Fundamentals:** Data Preprocessing, KPI Monitoring, Fraud Analysis, Risk Assessment, Database Management
- **Languages:** Telugu (Native/Bilingual), English (Advanced Professional), Hindi (Advanced Professional)
